

TURBOCAM
INTERNATIONAL

TURBOCAM ROMANIA

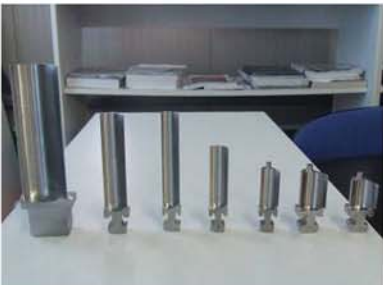

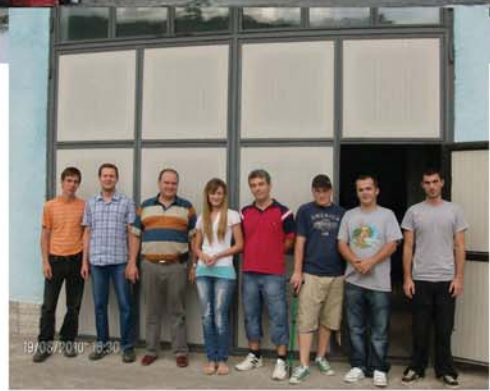

TURBOCAM Romania specializes in the manufacture of blades and vanes for steam and gas turbines and nozzle rings. The company also produces aftermarket spares and components that demand high-quality, low-cost precision manufacture.

Our shop features five CNC milling centers, one CNC lathe, a belt polishing machine and a Wenzel Smart CMM.

Innovate with Grace

TURBOCAM exists as a business for the purpose of honoring God, creating wealth for its employees, and supporting Christian service to God and people.

TURBOCAM Romania General Manager Sorin Ignat (left) with some of the employees from the TURBOCAM Romania blades group (photo left) and the nozzle ring group (photo right).

“TURBOCAM Romania currently has 19 employees with plans to hire three or four additional people for the nozzle ring group in 2011. The company is also pursuing ISO 9001:2008 certification. Call or fax us today with your requirements. We guarantee you a quick, courteous and intelligent response.”

- Sorin Ignat, Managing Director
